DEEPPDALE

ENGINEERING CO. LTD.

Deepdale Engineering was formed in 1949 and is still owned and managed by one of the founding families.

It has become a leading sub contract fabrication company in the UK and more recently Europe and the Far East.

Deepdale operates from a 3500 square metre site in the industrial heart of the country.

Employees are long serving and dedicated to providing our clients with the highest quality engineering solutions. This is achieved by quality control and individual expertise and experience gained over the last 50 years.

Our clients are drawn from a diverse range of sectors including Offshore, Petro-Chemical, Water, Nuclear, Civil Engineering, Aerospace, Restoration and a host of Sub-contract engineering companies.

ISO9001:2000 accreditation, repeat business and on-going recommendations are proof of our quality. We are sure that our team of experienced engineers can offer cost effective solutions to your requirements.

What Deepdale have to offer...

- An established reputation for quality and craftsmanship.
- Most grades of materials catered for, including exotic and specialist materials.
- All welders are coded to EN287/288 & ASME standards.
- N.D.T and other finishing services are available locally.
- Delivery of finished items on time.
